

LOW TEMPERATURE CALIBRATION KIT MODEL 9551

Low Temperature Calibration Kit Model 9551 Includes:

- ◆ Model LT100 Ultra Precision Differential Thermometer
- ◆ 2 Thermistor Temperature Probes (TT)
- ◆ Calibration Reference Block
- ◆ EO CalSof Automated Calibration Software (requires National Instruments IEEE488 card)

Specifications

Calibration Range	0°C to 100°C (TT)
Channels	2
Resolution	.0001°C
Display	°C, °F, K
Computer Interface	RS-232 OR IEEE488
Input Power	100/120/220/240/VAC, 50-60 Hz, 50W

Model 9551 is used with EOI models LES100, LDS100, CES100, and CDS100
