

MID TEMPERATURE CALIBRATION KIT MODEL 9552

Mid Temperature Calibration Kit Model 9552 Includes:

- ◆ Model 6658-S2 Precision Differential Thermometer
- ◆ 2 Platinum Resistance Thermometer Probes (PRT)
- ◆ Calibration Reference Block
- ◆ EO CalSof Automated Calibration Software (requires National Instruments IEEE488 card)

Specifications

Calibration Range	0°C to 200°C (PRT)
Channels	2
Resolution	0.0001°C
Display	°C, °F, K
Computer Interface	RS-232 OR IEEE488
Input Power	100/120/220/240/VAC, 50-60 Hz, 50W

Model 9552 is used with EOI models CES100, CDS100, CES200, and CDS200
