

HIGH TEMPERATURE CALIBRATION KIT MODEL 9554

High Temperature Calibration Kit Model 9554 Includes:

- ◆ Agilent 34420A Precision Thermometer
- ◆ Thermocouple Temperature Probe (TC)
- ◆ Ice Bath Dewar
 - Thermocouple Cold Junction / Crushed Ice Bath
- ◆ Thermocouple Mounting and Support Hardware
- ◆ EO CalSof Automated Calibration Software (requires National Instruments IEEE488 card)

Specifications

Range of Temperature Measurement	50°C to 1400°C (TC)
Channels	1
Resolution	0.001°C
Display	°C, °F, K
Computer Interface	RS-232 OR IEEE488
Input Power	100/120/220/240/VAC, 50-60 Hz, 50W

Model 9554 is used with EOI models CES375, LES375, CES600, LES600, CES800, LES800, ES1000, CS1050, LS1050, CS1250, LS1250, CS1350, and LS1350
